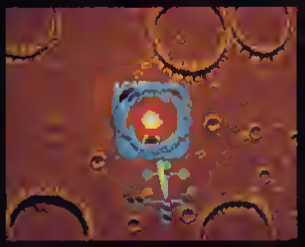
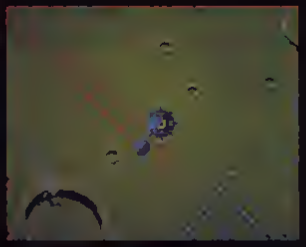
cerberus*

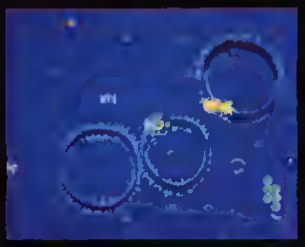
CERBERUS* SIZZLES!



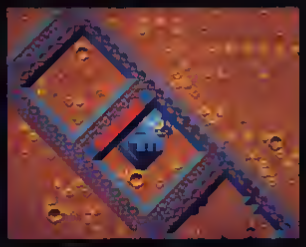
An alien laser blast hits your space stations, jarring loose your fuel pods!



Enemy Tugs and Escort Fighters are also after the pods. Stop them, but look out for the Maniac Destructo 'Bot — it destroys everything in its path!



Your space station is helpless without those pods. You've got to retrieve them!



The awesome Defense Ring. If the aliens can activate it with your fuel pods, you can kiss the galaxy goodbye!

You've been invited by an alien federation to make a scientific survey of the moon Cerberus. As your low-orbit space station glides peacefully over the lunar surface and its many-changing colors, an alien moon base suddenly lashes out with a powerful laser beam!

The space station is undamaged, but the blast has jettisoned all eight of its fuel pods. Now you find out what the aliens are really up to. . . They want those pods to power up a huge defense ring that encircles the moon. If they succeed, they'll have the most powerful space weapons platform in the galaxy!

CERBERUS sizzles as galactic rangers of all ages fight off swarms of Enemy Tugs and Escort Fighters that try to make off with the pods! Players can fly solo or plan their strategy with a friend, but either way, they've got to be aces to put down the alien threat and keep their space station alive!

CERBERUS is the first of many powerful new hits designed for the incredible **CINEMAT SYSTEM*** from **CINEMATRONICS.** The superior system with action-packed high resolution graphics, ultra-reliable hardware and easy conversions — all at a price that won't leave you stranded in orbit.

Play Features

CERBERUS* is designed to maximize operator flexibility with minimal need for maintenance. The game is built to include the best features for ease of operation and selectable options.

- 400 different coinage settings
- Free play option
- 48 difficulty settings
- 160 bonus combinations
- Complete on screen hardware diagnostics
- Complete game duration statistics
- Complete bookkeeping information

CERBERUS* and the **CINEMAT SYSTEM*** both feature Cinematronics' superior engineering and workmanship. The **CINEMAT SYSTEM*** is designed for maximum quality and durability. Add easy field servicing/changeover and you've got fewer headaches, less maintenance — And that means real profits!

Dimensions
76" high, 39" deep, 33" wide,
325 lbs.
